

BPSResolver

Enterprise Risk Manager

Over 100 of the world's best managed companies recently chose **BPS Resolver ERM** over other Enterprise Risk Management products. We make the process of identifying critical risks, conducting risk assessments and linking results with risk appetite simple. BPS Resolver makes it easy to see which risks to Avoid, Tolerate, Transfer or Treat.

BPS Resolver risk has flexible and easy to understand tools to manage risks, assign ownership, track progress, and set and meet targets.

Risk management practitioners and ERM heads tell us that our tool **comes ready** with everything they need to build, operate and grow their ERM initiative: No programming, no customizing, no lengthy setup or extended training. A product that simply works great, right out of the box!
